EASTERN OREGON UNIVERSITY

EOU Campus

Eastern Oregon University's Bachelor's in Cybersecurity program prepares students to protect data, systems, and networks through a practical, hands-on curriculum rooted in real-world applications.

Recognized as a National Security Agency Center for Academic Excellence in Cyber Defense, the program emphasizes applied skills over heavy theory, keeping math requirements minimal while focusing on areas such as threat analysis, malware investigation, incident response, and network defense. Students gain a strong foundation in computer science through coursework in programming, data structures, and system architecture, complemented by training in both Windows and Linux environments.

Small class sizes and faculty with deep industry experience foster personalized learning and mentorship, while an active advisory board connects students to current industry needs and career opportunities.

Offering Bachelor of Arts, Bachelor of Science, and Bachelor of Applied Science options, the program provides flexibility for traditional and transfer students alike, empowering graduates to enter a rapidly growing cybersecurity field with confidence and expertise.
