NEW JERSEY CITY UNIVERSITY

NJCU Campus

The **New Jersey City University (NJCU)** Cybersecurity program is an interdisciplinary center for cybersecurity education, training, and research. The center aims to provide current and future professionals with the knowledge and skills necessary to strive and compete within the cybersecurity community. Our student's foundation is built through their degree program, certificates,f and research opportunities.

NJCU students have realized significant career success as a result of our Information Assurance/Cybersecurity offerings. Students are working in agencies such as the New Jersey Office of Homeland Security and Preparedness, United States Department of Homeland Security, The Regional Operational Intelligence Center of the New Jersey State Police (Fusion Center), Coast Guard Intelligence, Naval Intelligence, National Security Agency (directly and with contractors), and others. Additionally, we have graduates that have enhanced their careers even on the municipal policing level, working to develop their agency's information assurance programs. We also have those working in the private corporate sector.

The Cybersecurity Club at NJCU is a student-run organization focused on Cyber and Information Security topics. We provide free training using advanced technologies in digital forensics, log analysis, server configuration and hardening, virtualization, and industry leading certificates training. We utilize state-of-the-art Cyber Lab also known as Simulated Command Center with Cyber Lab located in the Professional Studies building.

President Sue Henderson Ph.D. is immensely supporting the advancement of our cybersecurity program, training, and research.
