

University of New Haven

The **University of New Haven's** Connecticut Institute of Technology (CIT) at the Tagliatela College of Engineering houses the Samuel S. Bergami Jr. Cybersecurity Center. CIT is the home of the first National Security Agency designated Center of Academic Excellence in Cyber Operations (CAE-CO) in the state of Connecticut, and one of only 23 nationwide.

Our mission is to advance knowledge in technology-driven domains that will serve and protect the state, nation, and the world by educating students in hands-on, competency-focused environments, leading to well-rounded and entrepreneurial-minded graduates that are highly employable.

Our Bachelor of Science in Cybersecurity Concentration in Cyber Operations program the designated program for our Center of Academic

Excellence in Cyber Operations. This program provides a solid foundational knowledge in cybersecurity along with high-skilled and high-impact hands-on projects and labs.

Our students take courses in networking, network defense, cybersecurity, cyber forensics, mobile device forensics and exploitation, and reverse engineering. They are conducting research in cybersecurity, cyber forensics, AI and Cybersecurity, and more. Our students have been employed by the NSA, DoD, DoJ, NASA, Lockheed Martin, Raytheon, MITRE, Sandia Labs, and IBM.
